I like Adam Green but can't watch his videos too often. After a while I start waking up angry due to how fucked the world seems.

This video was pretty infuriating to watch.

Big respect to Adam though.

then the question arises of why? I'm sure you will instantly justify this by saying things like
>we jews are smarter than everyone else
Ok, this is a supremacist position and so you are confirming that jews are over represented in positions of power and influence because they see themselves and their tribal members as superior to the other peoples but then this actually confirms a conspiracy of supremacists as the reason for that over representation
And furthermore it means you are what you claim your enemies are

yes, Icke wrote a new book explaining how the JQ ties in directly to the reptilians and their moon base (he recently published his book about the moon base/mind control beams it emits).

so Adam Green helped Icke blow the lid off of the connection between the JQ and reptilians and their moon base.

I guess you aren't really up to speed with Icke's work, let me help you out anon! You gotta watch this video:

https://www.youtube.com/watch?v=ufX1YRJHwyI

Icke explains how the people who control our world (the Jews/Reptilians) have a base on the moon (which is hollow) from which they beam mind control beams into our brains on Earth to control us and our perception of reality.

In Icke's book Adam Green promoted, Icke explains 9/11 (which was orchestrated by the Moon Matrix reptilians from their hollow moon starship base).

Anyways, Adam Green is based and redpilled for having the guts to invite Icke on his show and help promote his work that connects 9/11 to the reptilian moon base / Jews. Anyone who disagrees is a shill.

where is the lie, anon? Adam Green had Icke on his show and promoted Icke's new book, part of his series on exposing the reptilian moon base control matrix, and in this case their role in 9/11.

I just provided you with a link of Icke talking about the moon matrix mind control base.

Damn in one of my hard drives that went dead I had information sourced in the early 2000's that named the likely suspect as a dual citizen scientist who worked at the US weapons lab. It laid out his connections to the Mossad, his troubles with a Egyptian co-worker, he retained badge entry after being fired, and left the country.

With Green he's careful in wording so it might be hard for YT to flag.
